RP Cabinet Series

The Guardian Record Protection Cabinet Series is designed to offer 1 hour fire resistance for paper-based documents. It is manufactured to the highest standards, assuring you peace of mind in case of a fire.

The construction of the cabinet's body allows it to maintain its rigid form even when dropped from a height of 30 feet. This assures you of a secure cabinet in the event it falls through a floor destroyed by fire.

The Guardian RP Cabinet Series is secured with a single push action lock as standard. Each drawer is also secured with its own spring day catch for individual control. This allows a particular drawer to be accessed even though the other drawers are locked centrally.

The Guardian RP Cabinet Series comes in 3 standard sizes. For further information please contact Gunnebo Security or any of our Authorised Dealers.
